### Superline™ MR-16

Superline™ series of Halogen MR-16 lamps provide professional accent lighting through evenly distributed light. The multilense geometry of the reflector surface in conjunction with an axial, computer-aligned filament, uniformly illuminates any surface. There is no ring-shaped shadow and no black spot in the middle of the light pattern.

The refined beam pattern of the Superline™ lamp is perfectly suited for wall washing and illuminating artwork where the quality of light is not a compromise. The UV-cut halogen capsule and IR permeable reflector helps protect heat-sensitive objects. The seven layer reflector coating is made up of a hard Titanium Oxide surface that provides consistent color throughout the life of the lamp and consistent color from lamp to lamp. Superline™ offers 5000 hours average life - an extra 1000 hours over standard MR-16 lamps.

Available in 20W, 35W, and 50W in Narrow Flood and Flood beam spreads.

#### FEATURES & BENEFITS

#### APPLICATIONS

#### SPECIFICATIONS

##### FEATURES & BENEFITS

- Excellent center-to-edge uniformity
- High quality Titanium Oxide coating
- Consistent Color
- Axial filament for precise beam control
- Long Life — 5000 hrs average
- Dimmable
- Crisp white Halogen light
- UV-cut Halogen capsule
- Base type GU5.3
- Low Voltage - 12 Volts
- Universal Burn Position
