

New for 2005

PJB4175

Pool/Spa Light Junction Box

Why pay more and stock two J-Boxes when all you need is one! Intermatic's new J-Box has more innovations than all the other models combined. With safety and convenience in mind, our sloped platform design offers ease of installation. Fewer parts to manage and a competitive price, the PJB4175 is the best choice for every pool/spa light application.

For more information, contact your local Intermatic representative or visit www.intermatic.com.

- Only J-Box in the industry to support up to four pool/spa lights
- All five ports accept up to 1" conduit
- Unique strain relief clamp accepts flexible cords from #16-3 to #10-2
- Ground bar accepts up to 10 gauge standard wires and #8 solid bonding conductors
- Optional bracket allows for mounting to walls or multiple size posts
- Complies with all the requirements of UL1241 and the National Electrical Code
