

Compost Tea System 10™

U.S. Patent No. 6,649,405

Going green? Buying organic? Now you can provide the plants in your own garden with chemical-free nutrition and beneficial microlife. Nourish them with compost tea — it's organic! This liquid extract of compost is an excellent way to feed your plants and renew the health of your soil.

Compost tea is easy to make with our Compost Tea System10, and simple to use. Ideal for the first-time gardener to those with a seasoned green thumb, the System10 delivers the same reliable performance as our larger Compost Tea Systems, in a portable and convenient size engineered for years of safe and consistent operation.

The System10 includes a FREE 15 oz. container of Compost Tea Catalyst™, our proprietary blend of ingredients that feeds the beneficial microlife produced during the compost tea brewing process.

Compost Tea System10™

Features

- Patented Compost Tea System design
- Fine Bubble Diffusion technology
- Industrial grade components
- Convenient size
- Easy to clean

Specifications

Tank capacity	10 gallons/40 liters
Aeration	Fine Bubble Diffusion
Air delivery	Piston air pump
Electrical	110V/220V
Tank/Stand	UV stabilized polyethylene
Valves/Fittings	Banjo® glass-filled polypropylene
Compost Basket	1 Heavy duty woven nylon 18 mesh/1000 microns
Weight	27 pounds/12 kilos
Dimensions	20 x 20 x 27 inches 51 x 51 x 71 centimeters
Brew time	24 hours

Martha Stewart features Growing Solutions founder and President Michael Alms and the Compost Tea System10 on her April 2, 2009 show. Visit growingsolutions.com "Headlines" to view the video and read Martha's blog about her own System10.

Sonja Boynton of Bluebird Herbs, Inc. says, "I've made compost tea for years, but the first time I used my System10, it was clear that I had just taken a quantum leap in the quality of the compost tea! I've used it with great success.... I love this System."

"Teaming with Microbes" author Jeff Lowenfels says, "...We're impressed at how easy it (System10) is to operate and clean, and the consistent quality of the tea it produces." Read Jeff's book to learn more about the benefits of using compost tea.

Compost Tea Catalyst™

This unique blend of ingredients is formulated to support diverse microbial growth during aerated compost tea production. In addition to seaweed extract and mineral powder, our OMRI Listed® Catalyst contains an array of select botanical ingredients without the use of simple sugars.

Compost Tea Catalyst

Available in four sizes:

15 ounces/425 grams

4.5 pounds/2 kilograms

9 pounds/4 kilograms

45 pounds/20 kilograms
