

F30T12 WW RS ALTO

Product family description
Environmentally responsible and long life.

Features/Benefits

- Long life.
- Reduce maintenance and recycling costs.
- Up to 20% more life on average than a Philips standard 4'T12 34W lamp.
- Better for the environment.
- Only 4.4mg of mercury with ALTO® Lamp Technology.
- Warranty period: 36 months.

Notes

- Rated average life under specified test conditions with lamps turned off and restarted no more frequently than once every 3 operating hours. Lamp life is appreciably longer if lamps are started less frequently. (202)
- Approximate Initial Lumens. The lamp lumen output is based upon lamp performance after 100 hours of operating life, when the output is measured during operation on a reference ballast under standard laboratory conditions. (203)
- For expected lamp lumen output, commercial ballast manufacturers can advise the appropriate Ballast Factor for each of their ballasts when they are informed of the designated lamp. The Ballast Factor is a multiplier applied to the designated lamp lumen output. (204)
- Design Lumens are the approximate lamp lumen output at 40% of the lamp's Rated Average Life. This output is based upon measurements obtained during lamp operation on a reference ballast under standard laboratory conditions. (208)
