

**UTILITY GRADE LOCKING-TYPE PHOTO CONTROLS**  
ELECTRONIC SERIES WITH 2-5 SECOND TIME DELAY

SPECIFICATIONS	
	Description
<b>Housing:</b>	UV stabilized high-impact polypropylene.
<b>Photocell:</b>	Standard with silicon sensor. Also available with cadmium sulfide cell.
<b>Turn-on:</b>	1 foot-candles.
<b>Turn-on/ off Ratio:</b>	1:1:5.
<b>Time Delay:</b>	5 seconds.
<b>Switch Type:</b>	Single-pole, single-throw. Contact position at night normally closed.
<b>Temperature Range:</b>	-40° to 170°F
<b>Power Consumption:</b>	.6 watts average at 120 VAC.
<b>Surge Protection:</b>	320 joule MOV (Metal Oxide Varistor).
* Replaces models 8660, 8672 and 8690	

DIMENSIONS
3.07" diameter, 2.15" high.

State-of-the-art electronic circuitry provides a tighter turn on/turn off ratio that minimizes luminaire burning hours and reduces energy costs. Meets ANSI C136.10 - 1988 Standards.
