Natural Patinas

Natural Antique Bronze (NAZ) is the Standard finish. Other Natural Patina finished and Powder Coat finishes are available for an extra charge.

Troy Landscape Lighting Natural Patinas are chemically etched finishes available on Solid Brass and Solid Copper fixtures only. chemical etching accelerates the natural aging and weathering that copper and brass experience when used outdoors. These finishes will continue to develop and richen over time. They begin with an "N". Unfinished Brass and Unfinished Copper are just as described - unfinished. The metal will oxidize and darken with age.

Powder Coat Finishes

Troy Landscape Lighting powder coat finish colors are available on all fixtures for an additional charge. The powder coat finish is baked on at 400° over a primer pre-coat for both chip and weather resistance. All powder coat finishes begin with a "P".
