

V-Twin Series

The V-Twin Series is specifically designed with rugged construction for the high heat and high vibration environment of V-Twin motorcycles.

Flush-mount threaded terminals allow for easy installation.

Patented internal post design replaces 3 internal connections with 1 to reduce internal resistance and increase cranking performance.

Stainless steel bolts eliminate rust and corrosion.

Flat-black stipple mold for robust appearance.

Heavy-duty internal buswork and thick through-partition welds allow for more cranking amps.

Let UPG power your extreme adventures.

ADVENTURE POWER®

Power Sport Batteries

Designed For
Extreme Adventures

UPG's Adventure Power Series® offers the most complete power sports battery selection of over 300 SKU's covering everything from specialty V-Twin batteries to 6 volt conventional batteries.

All Adventure Power batteries are designed, manufactured, and tested to meet or exceed JIS D 5302, the internationally accepted standard for motorcycle batteries.

These Valve Regulated Lead Acid (VRLA) batteries with AGM separators are safe to ship by air and are maintenance-free.

With the inclusion of the UBVT-7, our V-Twin battery for electric-start shovelheads, Adventure Power has a maintenance-free battery available for every Harley-Davidson motorcycle made since 1964.

UPG Adventure Power® Series

AGM Series

Sealed AGM

- With our comprehensive line of both sealed and dry-charge batteries, we have the Adventure Power® AGM battery to meet your needs.

- AGM sealed technology has redefined the motorcycle battery:

- Maintenance free, so no more filling with acid!
- Will not leak, even in the upside-down position.
- Lead-Calcium plates more than double the storage life.
- Valve Regulated Lead-Acid (VRLA) design means low gassing during charging.
- Increased CCA performance.
- The Adventure Power® line includes several upgrade options like the UT12C, which is a sealed AGM upgrade of the popular UB12A-A (YB12A-A) conventional battery type.

- Classified as non-hazardous and may be shipped by air.

AGM Series

Dry Charged AGM

- Includes acid pack for filling and charging by end user.
- Packaging conforms to DOT ORM-D standards and may be shipped UPS ground.
- Acid pack is contained in a thick poly bag for additional protection against spillage.

Energizer®

Power for Every Getaway

CHARGERS & MAINTAINERS

Prescription for Battery Health

- 12V 1A
- 12V 2A
- 12V 4A

- ✓ Charges and maintains sealed lead-acid batteries in motorcycles, ATVs, snowmobiles, boats and other vehicles.
- ✓ Conveniently and safely maintains battery charge while in storage without having to disconnect from motorcycle or vehicle.

Maintainer 1000 - UPG No. 84026
 Maintainer 2000 - UPG No. 84027
 Maintainer 4000 - UPG No. 84028

Features

- Switch-mode power for better efficiency, reliability
- Physically small and light-weight
- Full 3-stage charger, not just a battery maintainer
- Short-circuit protected
- Reverse polarity protected
- Back-feed protected
- Three color charge-stage indicator
- Multiple output cords; ring-terminal for permanent mount or battery clamps for random charging
- Plastic case for electric shock protection
- Reusable cord wraps

Conventional Series

- Our Adventure Power conventional series consists of a full range of conventional batteries including Standard, High Performance, and Low Maintenance Conventional batteries.

- Using time-tested technology combined with modern manufacturing processes, these batteries are reliable and affordable.

- Packaging complies with DOT ORM-D standards for shipment via UPS ground.

Reliable. Powerful. Trusted.
