Solas PML®

PML®

Dual PML®

Personnel Marker Lights (PML®) are activated with a squeeze, causing the casing to slide off, revealing the activated green light stick. PMLs provide 360° illumination and come as a SOLAS, single or double version.

- **Verifiable** 4-year shelf life from date of manufacture
- Tamper Evident Label
- Lightweight and waterproof
- Dual PML has an option for warm (greater than 50°F) and cold water (less than 50°F)
- The SOLAS PML has a battery operated, water or manually activated beacon in addition to the chemical light. Electronics will shut off 30 minutes after being removed from the water
- Duration varies with water temperature; Average duration is 8 hours
- Visible up to 1 nautical mile; 3 miles from altitude
- Attaches to PFDs, immersion suits & clothing
- No batteries (except for SOLAS version), non-toxic, non-flammable and no heat emitted
