

Classic Style Digital Dimming

ToggleTouch®

Toggle Switch Simplicity and Intuitiveness with Digital Dimmer Elegance and Control

Leviton's traditional-style dimmer, ToggleTouch®, is being re-introduced with advanced features. It offers superior digital technology wrapped in a clean, classic aesthetic that blends with any décor. ToggleTouch can be ganged with standard toggle-style switches in a wide variety of applications and provides single-pole and 3-way control in one device. Updated features include compatibility with standard 3-way wiring practices, screws mounted to the strap and color-matched touch pads. You will appreciate the effortless installation and your customers will love the traditional style.

ToggleTouch Features:

- Universal design provides smooth ON/OFF toggle action and fingertip-controlled touch dimming
- Touch pads match color of toggle switch for uniform look
- Green locator light illuminates when lights are OFF
- Provides preset dimming with soft-ON feature
- Protected memory ensures dimmer will retain last setting during temporary power failures
- Provides single-pole (one location) and 3-way (multi-location) control when used with a 3-way ON/OFF switch
- Standard wiring installs on either the line or load side of a 3-way circuit
- Fits into a standard toggle wallplate and gangs with all Leviton toggle switches
- Five-year limited warranty
