FORMULATED WITH NATURAL PLANT EXTRACTS AND ALL NATURAL PENETRATIVE AGENTS

# Advanced Organic Technology That Packs A Powerful 98% Efficacy Rate Upon 1st Application

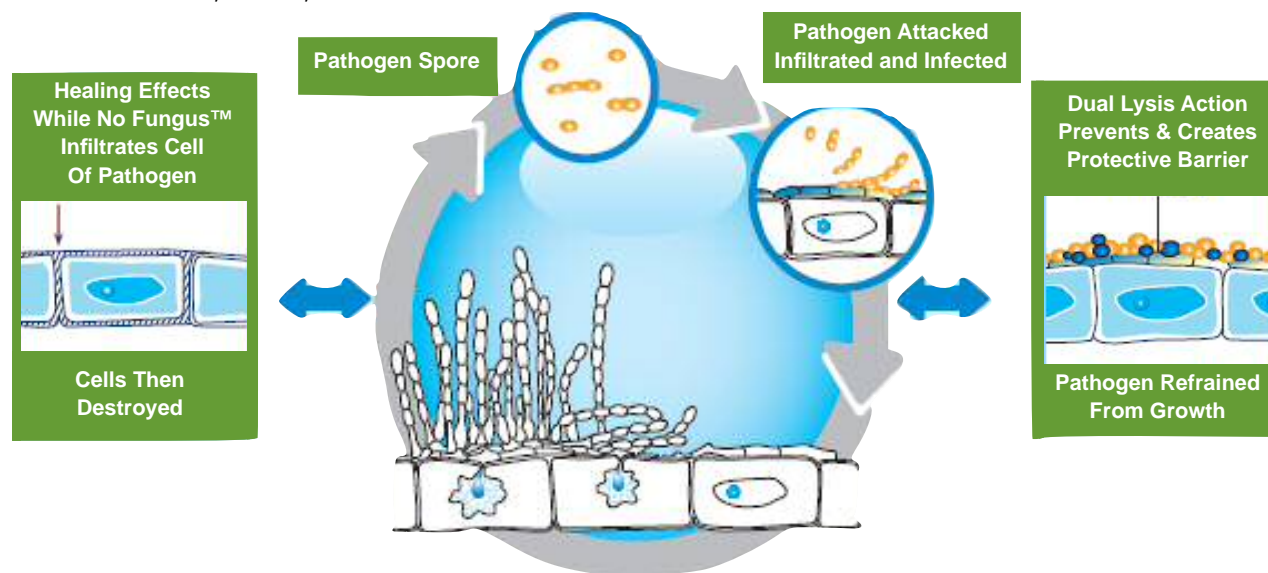

## Use No Fungus™ Anytime Up To Day Of Harvest!

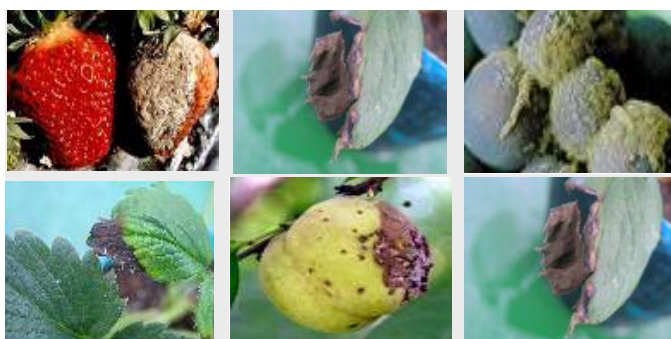

No Powdery Mildew™ attacks powdery mildew spores immediately and on contact. Powdery mildew spores do not stand a chance against the powerful, scientifically advanced, nano surface technology. Simply put, **No Fungus™ JUST FLAT OUT**

### **WORKS!**

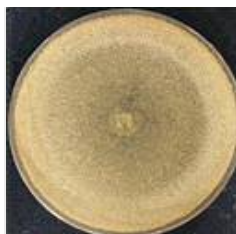

No Fungus™ dual lysis actions attacks Downey Mildew, Pythium, Anthracnose, Fusarium, Phytophthora, Gray Mold spores at the mycelium. Then, No Fungus™ destroys the mold, mildew or fungal cell pathogen while simultaneously providing your valuable crops with a natural plant extract barrier of protection. Our natural plant oil and extract technology evaporates completely while leaving your valuable fruits & vegetables free from harmful chemical, odors, aroma' or aftertastes.

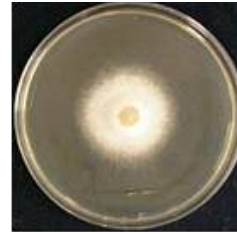

**No Fungus™ Induces Imbalance Of K-Ion Inside Mycellium and Refrains Spore Germination and Mycellium Proliferation**

**Before**

**After**

The above photo demonstrates the restriction of spore germination after one single application of No Fungus™. No Fungus™ has a 92%-98% efficacy rate on the restriction of further spore germination upon 1st application.
