

Technical Data: Hydroponic Substrate

Growstone® manufactures products for the horticultural, agricultural, water filtration and building industries, and other markets making use of recycled glass that would otherwise be buried in landfills. Growstones are made in the USA from 100% recycled glass. Growstones possess superior air-filled porosity and excellent water-holding capacity, and are reusable without breaking down over time.

PRODUCTION FACILITY:

Albuquerque, New Mexico USA

PACKAGE SPECIFICATIONS:

RETAIL PACKAGING
