New Vierti lighting controls combine style and simplicity in a remarkably innovative product.

Vierti Dimmers and Switches

- Full-featured, multi-location dimming – adjust and determine the light level from any location (up to 5)
- LEDs act as a subtle locator light for easy location in the dark
- Audible feedback confirms the user's touch
- Precise lighting control – the illuminated bar is longer than on standard dimmers making it easier to set the perfect light level
- Adaptive LEDs brighten when touched to indicate the dimmer is responding, then glow softly when at rest
- Available in 3 different LED colors and 21 different wallplate colors and finishes
- Numerous advanced programming features including adjustable light level fade times, high-end trim and LED intensity. Please visit www.lutron.com/vierti for a complete list.

LUTRON®

Vierti dimmers

Model number	Control Type	Maximum Capacity
VT-600-☐-☐	single-pole	600 W/VA incandescent/magnetic low-voltage
VT-600M-☐-☐	single-pole/multi-location	600 W/VA incandescent/magnetic low-voltage
VT-1000M-☐-☐	single-pole/multi-location	1000 W/VA incandescent/magnetic low-voltage
VTELV-600M-☐-☐	single-pole/multi-location	600 W electronic low-voltage
VTF-6AM-☐-☐	single-pole/multi-location	120/277 V / 6 A, fluorescent (Hi-lume®, Compact SE™, Eco-10™, and EcoSystem™ ballasts)
VT-AD-☐-☐	multi-location companion dimmer	provides multi-location dimming from up to four additional locations

Vierti switches

Model number	Control Type	Maximum Capacity
VT-S6AM-☐-☐	single-pole/multi-location electronic switch	6 A light/3 A fan, incandescent, MLV, ELV, non-dim fluorescent ballasts, general purpose fans
VT-AS-☐-☐	multi-location companion switch	provides multi-location switching from up to four additional locations

Vierti opening wallplates

Model number	Description
VTW-1-☐	1-opening
VTW-2-☐	2-opening
VTW-3-☐	3-opening
VTW-4-☐	4-opening

Products available in the following colors

LED colors   blue (B), green (G), white (WH); **LED modules not sold separately**

matte finishes   white (WH), beige (BE), ivory (IV), almond (AL), light almond (LA), gray (GR), taupe (TP), sienna (SI), brown (BR), black (BL)

metal finishes   satin brass (SB), bright brass (BB), bright chrome (BC), clear anodized (CLA), black anodized (BLA), brass anodized (BRA), antique brass (QB), antique bronze (QZ), satin chrome (SC), satin nickel (SN), bright nickel (BN)

How to order you products

matte finishes – select the model number, select the LED color, select the wallplate color

model	LED color	product color	finished model number
VT-600M-	B	WH	**VT-600M-B-WH**

metal finishes – select the product model number (we suggest black) and metal finish wallplate

model	LED color	product color	finished model number
VT-600M-	B	BL	**VT-600M-B-BL**
VTW-1-		SN	**VTW-1-SN**
